

Moments with Surah An-Naml

Contemplative moments with Surah An-Naml and the story of Solomon (peace be upon him)

Surah An-Naml presents scenes from the story of Solomon (peace be upon him): knowledge that understands the speech of birds, a kingdom governed with justice, and an ant that recalls the greatness of creation and the precision of providence.

These reflections consider gratitude in times of blessing, humility alongside power, and the invitation of Bilqis to faith with wisdom and gentleness.

The practical message is that power without gratitude is dangerous, and that sound leadership joins knowledge, mercy, and responsibility.
